

## Call for Papers

### Workshop Organizing Committee

- Jorge Guerra Guerra, UNMSM
- Armando Fermín Perez, UNMSM
- Carlos Canepa Perez, UNMSM
- Jorge Chavez Soto, UNMSM
- Manuel Casas Fong, UIGV
- Santiago Gonzales, UIGV
- John Trujillo Trejo, UNMSM
- David Mauricio, UNMSM
- Marcos Rivas Peña, UNMSM
- Virginia Vera, UNMSM.
- Percy de la Cruz, UNMS
- Marco Coral Y, UNMSM-SPC

The 7th version of the JPC 2008 to be held in Lima – Perú, November 10 – 15, 2008, is organized by the Universidad Nacional Mayor de San Marcos (UNMSM) and the Peruvian Computer Society (SPC). The JPC 2008 brings the opportunity to exchange experiences among the national and international community of researchers, academic and practitioners of the different areas of Computer Science, Computer Engineering, Software Engineering, Information Systems and Information Technology. In this opportunity, the preoccupation of the organizers is focused in the importance of the technology in the development of the society, therefore, this JPC 2008 edition will be held in Lima.

From its first edition, the JPC has been showed as the adequate meeting for the presentation of scientific works, conferences, curses and debates, in the pure scientific-academic as in the social aspects. Besides, it is an ideal event, for graduate and postgraduate students,

### Important dates

Paper submission	22 July 2008
Notification of acceptance or rejection	12 September 2008
Final Camera-Ready Manuscript	7 October 2008
JPC 2008	10 to 15 November 2008

### Workshop Academic Committee

- Cesar Beltrán C., SPC-Perú

to submit their papers that start as researchers. All that, in a short time, has contributed to make of the JPC as the most important conference of the country, bringing together the scientific-practitioners communities of Computer Science, Computer Engineering, Software Engineering, Information Systems and Information Technology.

The Program Committee welcomes paper submissions that report original results of researchers in all areas of the five international standards suggested by IEEE-CS/ACM. No paper must be presented in early events or journals for publication. Topics covered by the conference, but not limited, are the following:

- Algorithms and data structures.
- Computer architectures.
- Data base.
- Bioinformatics.
- Computer graphics.
- Software engineering.

- Programming languages and paradigms.
- Data mining.
- Multimedia.
- Colaborative systems.
- Distributed systems.
- Operative systems Information system administration.
- Intelligent agents.
- Genre Aspects.
- Legal, ethics and social aspects.
- Compilers.
- Movil Computation.
- WEB application development.
- Artificial intelligence.
- Human-computer interaction.
- Security and cryptography.
- Theory of computing.
- Computer vision.

### Paper Submission

Papers must be written in English, Spanish or Portuguese and are limited to 10 pages. Please submit a full length paper thorough the online submission system. (The paper format is very flexible, if you prefer to prepare your paper in IEEE 2-column format. Electronic submissions (in PDF or Postscript format) are required following the instructions in <http://sistemas.unmsm.edu.pe/spc2008/> . Accepted papers will be asked to submit the revised papers in a format to be specified at the time of publication.
